# SONU KUMAR

**Mangalagiri, Andhra Pradesh, India** | **Email:** sonukumar748436@gmail.com | **GitHub:** github.com/sonu-yv-08 | **LinkedIn:** linkedin.com/in/sonuyv08

## PROFESSIONAL SUMMARY

First-year Computer Science & Engineering (CSE) undergraduate at SRM University-AP with hands-on experience in full-stack web development and native Android application development. Proven ability to architect and deploy practical campus software utilities using Node.js, Express.js, React, and Kotlin. Seeking software engineering internships, research lab roles, and collaborative technical projects.

## EDUCATION

**SRM University, AP** — *Amaravati, Andhra Pradesh*

*Bachelor of Technology (B.Tech) in Computer Science & Engineering (CSE Core) | Aug 2026 – Aug 2030*

- **Relevant Coursework:** Computer Programming in C, Engineering Mathematics, Web Application Development, Data Structures & Algorithms, Object-Oriented Programming.

**R.P.S. Convent Public School**

*Senior Secondary (Class XII), Science Stream | May 2023 – May 2025*

## TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), Python, Kotlin, C, HTML5, CSS3
- **Frameworks & Libraries:** Node.js, Express.js, React.js
- **Developer Tools & Platforms:** Git, GitHub, Linux (Kali Linux / Ubuntu), VMware Workstation, VS Code, Android Studio
- **Core Competencies:** RESTful API Design, Full-Stack Web Development, Android UI/UX Design, Version Control, Problem Solving

## TECHNICAL PROJECTS

**CampusConnect — Student Skill & Interest Networking Platform**

*Technologies: Node.js, Express.js, JavaScript, HTML5, CSS3, GitHub*

- Engineered a full-stack web platform enabling university students to discover peers and form project teams based on shared technical skills, interests, and academic goals.
- Designed responsive frontend interfaces and implemented backend routing using Node.js and Express.js to handle student profile discovery, matching algorithms, and filtering.
- Maintained structured version control, modular code architecture, and comprehensive technical documentation on GitHub.

**Hostel Delivery — Intra-Campus Micro-Delivery Ecosystem** *(In Progress)*

*Technologies: React.js, Node.js, Express.js, REST APIs*

- Developing a full-stack web and mobile application architecture to streamline 10-minute floor-level deliveries inside university hostels.
- Building modular Express.js backend routes for order tracking, runner assignment, and real-time status updates paired with a React.js user interface.

# CERTIFICATIONS & WORKSHOPS

- **DroidCraft: Hands-on Workshop on Android App Development** — *Department of CSE, SRM University-AP (Oct 2026)*
  Completed an intensive three-day practical workshop focused on native Android application architecture, UI components, and mobile development workflows using Android Studio and Kotlin.

# LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- **Technical Content Creator (Tech Sonix):** Produce educational technology videos, software tutorials, and campus guides, managing end-to-end scripting, video production, and audience engagement.
- **Academic Project Coordination:** Lead presentation architecture, script structuring, and visual asset design for collaborative undergraduate course projects at SRM University-AP.
